

# Why County 25?

Though there are many Fulton Counties nationwide, we want to share why County 25 is the best. Our Fulton County can be found in the great State of Indiana, which is known as the "Cross Roads of America." Because we are usually a quick stop between two major towns, often visitors find us by accident, but end up staying on purpose. The unique characteristics of Fulton County will leave a lasting impression providing a plethora of activities as well as an abundance of rest and relaxation.

## *How did the County 25 designation come about?*

In 1963 the State gave a County Code to each of the 92 Counties in Indiana. Fulton County thus became County 25. In 2016, the Fulton County Tourism Commission, with the help of the County Chamber and the County Economic Development Organization, determined an updated brand was needed. During the analysis process, it was discovered that Fulton County, Indiana, though in the middle of no-where yet simultaneously in the middle of everywhere, is the actual crossroads of America. The new County 25 branding identifies our unique location, highlighting both our beloved State and the County that we are so proud to call home.

As part of telling our story we decided to create a line of brochures to help you discover our Fulton County. Each brochure features one of the five tourism experiences we have to offer: shopping, dining, venues, recreation and lodging. Take a moment to sit back and discover what great things County 25 has to offer! We hope you discover the Fulton County that so many people have found by accident but stay on purpose.
